URUBAMBA CANOEING EXPEDITION

CUSCO-CANOEING-CUSCO

(1 DAY)

Inflatable canoeing is a fun sport, suitable for pretty much any one - no experience is needed to take part in the great day out to a beautiful section of the Urubamba river.

The section we run is the class I-II Pini Pampa section, just outside Cusco where the river is clean, tranquil and incredible beautiful. It takes 45 minutes to drive to the river. On arrival we will inflate the one and two person canoes, don our wetsuits and lifejackets and following a full safety briefing and instruction in the art of canoeing, we set off for approx two hours of paddling. The river starts gently with time to practice the manoeuvres required, then builds up with a few fun rapids through a beautiful canyon where we will hopefully see torrents ducks and views of the surrounding peaks. After approximately two hours of paddling our canoes, we reach our take out point and enjoy a full picnic lunch before returning to Cusco mid to late afternoon.
